

# Walking On Your Hands

Red Lorry Yellow Lorry

People, are you walking on your hands  
Well, they've had you on your knees once  
But you still don't understand  
Are you walking on your hands

Are you walking on your hands  
You'll know just exactly where you stand  
'Cause if you try to move your feet  
It might not quite be how you planned

Oh are you walking on your hands  
Are you walking on your hands  
Are you walking on your hands  
Are you walking on your hands

Will you get yourselves up off the ground  
'Cause if you're crawling on that floor  
Perhaps you just might understand  
Oh are you walking on your hands

Are you walking on your hands  
Are you walking on your hands  
Are you walking on your hands
