

I Fell In Love With You

Red Simpson

Oh I never heard the band a playin' I never saw the
people swayin'
I didn't see the stars up there in the sky so blue
My head was really spinnin' my heart I knew you were a
winnin'
I couldn't help myself I fell in love with you

My dreams came true when you walked into sight
I asked you to dance and we danced and danced all night
I could see it in your eyes you were as lonely as me
And from the chains of loneliness you set us free
Oh I never heard the band a playin'...
[ac.guitar]
My life's complete now that I have your love
You're my every dream you're all I'm dreaming of
And I know that our love will always be and we'll have
happiness you and me
Oh I never heard the band a playin'...
I couldn't help myself I fell in love with you
