

Piggyback Blues

Red Simpson

I got the piggyback blues what's a feller to do
When the cab of a truck's been his home
I got the piggyback I gotta change my ways cause the long
old hauls're gone

Well the boss called us in about a month ago said fellow
the long hauls're through
Take your trailer to the railroad yard there's a flat car
waitin' for you
There's a flat car a waitin' for you
I'd like to see Mary in Abilene and Susie in Omaha
I'd like to see Jeannie in Albuquerque and Betty in
Wichita and Betty in Wichita
I got the piggyback blues...
[guitar]

Well these piggyback cars're gonna change my life I'll
have to start to slippin' around
I'll have to get the kitch that I miss so much in the
places on the outskirts of town
Yeah the places on the outskirts of town
I got the piggyback blues...
