

Take Me Home

Red Simpson

Rollin' I go rollin' along I'm listenin' to that diesel
hum a song
Well I'm just as happy as I can be cause my pretty baby
she's a waitin' for me
So come on truck yeah take me on home
I'm longin' just to hold her again and I miss her and
want to kiss her again
We've been on the road for a long long time
But we'll get some rest at the end of the line
So come on truck take me on home
[guitar + steel]
Stoppin' just stop outside of town at the truckstop where
all the truckers hang around
Oh we got some cleanin' up to do I need the shavin' you
need a washjob too
So come on truck yeah take me on home
(Come on truck let's go now gettin' close to home
There's the lights of the city and that's pretty)
