

I'm Just Lucky I Guess

Red Sovine

She's my girl she's my world she's my life to me
She's my girl she's my world she's my wife to be
She makes me actin' dress my best keeps me filled with the happiness
I don't know I'm just lucky I guess

What a lucky day it was when I met her what a lucky street to meet with the best
But don't ask me why I come to win her I don't know I'm just lucky I guess
She's my girl she's my world...
[steel]
She will give me memories extra special she's so different not like all the rest
Since I met her how I've changed she's gonna let me change her name
I don't know I'm just lucky I guess
She's my girl she's my world...
