

# Lost In Paradise

Red Wanting Blue

Where do we go from here, my dear?  
I said we've been here before for years  
And for years we wanted more  
Has it become clear to this woman and man?  
Who breathe heavy for Neverland

So deeper down we go down  
We're going deep down  
She said, "What goes around comes around"  
And deeper down we go down  
We're going deep down  
We'd rather be lost  
Than ever be found

This is the first time I think that we found paradise  
This is the first time I think that we found paradise

Memories of you and I barenaked Adam taking off Eve's disguise  
Eden's dressed with bedroom eyes  
Lovers uncovered we smother eachother on the floor  
And recharge our batteries to go

Deeper down we go down  
We're going deep down  
She said, "What goes around comes around"  
And deeper down we go down  
We're going deep  
We'd rather be lost  
Than ever be found

This is the first time I think that we found paradise  
This is the first time I think that we found paradise  
'Cause this is the first time we felt alive  
This is the first time we found our paradise  
Our paradise

Remember that time on the Fourth of July?  
When I couldn't tell the difference  
Between the fireworks and the fireflies  
And the stars in the sky

'Cause nothing ever looks as good as it does through your eyes

This is the first time I think that we found paradise  
This is the first time I think that we found paradise  
'Cause this is the first time we felt alive  
This is the first time we found our paradise  
Our paradise  
We're in paradise

(Nothing ever looks as good as it does through your eyes)  
(Lost in your eyes)  
We're in paradise  
(Repeat last three lines 12x)
