Already Over, Pt. 2

You never go You're always here Beneath my skin I cannot run away Fading slowly

Give it all to you Reaching as I fall It's already over, already over now

My best defense, running to you I can't resist, take all you want from me Breaking slowly

Give it all to you Reaching as I fall It's already over now Loving you again

It's already over, already over now You're what I reach for when I fall It's already over You're what I reach for when I fall It's already over now
