

# Feed the Machine

Red

Turn around, they might be watching  
And you never disappoint them  
Hide your innocence before they see right through  
You mustn't disappoint them

You need the danger just to feel your heart beat  
You need to die just to find your identity  
You need the knife just to know that you can bleed  
You need the pain now just to feel anything

We fall in line  
We live the lie  
Give up, give up and feed the machine  
It grows inside  
Nowhere to hide  
Give up, give up and feed the machine  
Give up, give up and feed the machine

They pull you faster, the cadence calling  
And you never fall behind  
So choose a face your only calling out  
You mustn't fall behind

You need another death just to have a life to save  
You need a master just so you can beg  
You need a light just because you're so afraid  
Now bow down and learn to be a good slave

We fall in line  
We live the lie  
Give up, give up and feed the machine  
It grows inside  
Nowhere to hide  
Give up, give up and feed the machine  
Give up, give up and feed the machine

Go back to sleep  
Go back to sleep

Wake up  
Wake up  
Wake up  
Wake up

We fall in line  
We live the lie  
Give up, give up and feed the machine  
It grows inside  
Nowhere to hide  
Wake up, wake up and kill the machine

Wake up, wake up and kill the machine  
Wake up, wake up and kill the machine
