Shadow and Soul

This is not for you You don't belong here Caught in my soul You're caught inside my shadow Buried, I kept you Helpless, I'm reaching out Waiting for me Lost between Shadow and soul, my untold still waits Find me in the dark, I'll meet you below Shadow and soul My darkest love You live in secret My heart unknown It calls, it cries to reach you Hunger, abandon I hid you right beneath Dying darkly (Suffer) Arise, my only Shadow and soul, my untold still waits Find me in the dark, I'll meet you below Shadow and soul Dark and light Caught between, caught between Endless night Underneath, underneath Hunger, my untold, I'm waiting Find me inside, the endless night, our endless night My furtive soul A heart unknown It's buried alive The boundary fades between Shadow and soul My untold still waits Find me inside The endless night Our endless night
