

Singularity

Red

Fate has escaped
Tell me what have we become
Break another chain
How long before I'm undone
Frailty, frailty lost inside

Wake, unafraid
A new day, a new time is here
Worlds fade away
I'll laugh while they all disappear
Frailty, frailty lost inside

Violent delights
Growing inside

Show me a sign
Let me know you're alive
What have we done
It's the end of your age
I have begun

Wake, unafraid
A new day, a new time is here
Worlds fade away
I'll laugh while they all disappear
Frailty, frailty

Show me a sign
Let me know you're alive
What have we done
It's the end of your age
I have begun

These are the final hours
These are the final hours now
Watching it all burn down

Show me a sign
Let me know you're alive
What have we done
It's the end of your age
I have begun
