

Step Inside, the Violence

Red

Separation (breaking, breaking)
Splitting me inside
Masquerading (masquerade)
I see the monster behind
Suffocate (it chokes) the life away
I choke on your lies
I'll descend, I'll burn the embers
Now I can rise
The war is just beginning

Step inside, step inside
(Step inside the violence)
Step inside, step inside
(Step inside the violence)

Complicating lost inside a maze
Fatal friend I say goodbye again
Abdicate abdicate another throne
I ascend, I, I ascend, I

Step inside, step inside
(Step inside the violence)
Step inside, step inside
(Step inside the violence)

Step inside the violence
Step inside the violence

I'll never let go
Give you control now
Obey
You are alone now

Step inside, step inside
(Step inside the violence)
Step inside, step inside
(Step inside the violence)

Step inside, step inside
(Step inside the violence)
Step inside, step inside
(Step inside the violence)
