

McKenzie baby you blew your mind  
Like mine with mine  
We could not find  
You got it back  
Baby got it back  
Everyone here all looks to you  
To show us all just what to do  
Got it back, baby got it back ...

oooooh ... we really dig you

I ponder the world I don't understand  
Why did she stay?  
Why did she go?  
I don't know, baby I don't know  
But I can't stand here and wait for you  
'cause you don't know just what to do  
Want you back, baby want you back ...

oooooh ... we really miss you  
You're just a nasty shag - yeah!  
Give us everything you've got!

She can make you happy (happy!)  
I can make you happy (happy!)  
We can make you happy (happy!)

McKenzie baby I'll wait for you  
Until you know what to do  
I want you back, baby want you back ...  
But I can't just stop loving you  
I guess you're just as screwed up as you know who  
Want you back, baby want you back ...

oooooh we really miss you  
You're just a nasty shag, yeah!  
Give us everything you've got!

She can make you happy (happy!)  
I can make you happy (happy!)  
We can make you happy (happy!)  
I can make you happy (happy!)
