

McKenzie baby you blew your mind
Like mine with mine
We could not find
You got it back
Baby got it back
Everyone here all looks to you
To show us all just what to do
Got it back, baby got it back ...

oooooh ... we really dig you

I ponder the world I don't understand
Why did she stay?
Why did she go?
I don't know, baby I don't know
But I can't stand here and wait for you
'cause you don't know just what to do
Want you back, baby want you back ...

oooooh ... we really miss you
You're just a nasty shag - yeah!
Give us everything you've got!

She can make you happy (happy!)
I can make you happy (happy!)
We can make you happy (happy!)

McKenzie baby I'll wait for you
Until you know what to do
I want you back, baby want you back ...
But I can't just stop loving you
I guess you're just as screwed up as you know who
Want you back, baby want you back ...

oooooh we really miss you
You're just a nasty shag, yeah!
Give us everything you've got!

She can make you happy (happy!)
I can make you happy (happy!)
We can make you happy (happy!)
I can make you happy (happy!)
