Mckenzie

Redd Kross

McKenzie baby you blew your mind Like mine with mine We could not find You got it back Baby got it back Everyone here all looks to you To show us all just what to do Got it back, baby got it back ...

oooooh ... we really dig you

I ponder the world I don't understand Why did she stay? Why did she go? I don't know, baby I don't know But I can't stand here and wait for you 'cause you don't know just what to do Want you back, baby want you back ...

oooooh ... we really miss you You're just a nasty shag - yeah! Give us everything you've got!

She can make you happy (happy!) I can make you happy (happy!) We can make you happy (happy!)

McKenzie baby I'll wait for you Until you know what to do I want you back, baby want you back ... But I can't just stop loving you I guess you're just as screwed up as you know who Want you back, baby want you back ...

oooooh we really miss you You're just a nasty shag, yeah! Give us everything you've got!

She can make you happy (happy!) I can make you happy (happy!) We can make you happy (happy!) I can make you happy (happy!)
