

Perfect

Redemption

(We all dream...)

This could be anything
This could be everything
Don't let a fantasy keep you from being free
We all dream of how things could be
(Dream of how things could be)
But the wise make peace with reality

Girl, we're just wasting time
Come and see what we find on the other side
We all dream of how things could be
(Dream of how things could be)
But the wise make peace with reality

We should devour life,
suck the marrow from each day,
but so many times we stand in our own way
and make the perfect the enemy of the good

Perfect! (4x)

We all dream of how things could be
(Dream of how things could be)
But the wise will embrace the good
(The ones embrace the good)
We all dream of how things could be
(Dream of how things could be)
But the wise make peace with reality
