

## Meet Her at Tomorrow

Redfoo

Pretty girl always on my mind  
When I try to chase her, I be running out of time  
Yesterday, I set her free, my heart's a little hollow  
If it's really meant to be, then I'll meet her at tomorrow

Pretty girl always on my mind  
When I try to chase her, I be running out of time  
Yesterday, I set her free, my heart's a little hollow  
If it's really meant to be, then I'll meet her at tomorrow

What we had was magic  
What we had was magic in our love  
What we had was magic  
What we had was magic in our love

Our love is like two doves in flight  
Two gloves fitting tight, true loves will unite  
Our love is like chemistry, heavenly  
Ivory, ebony, opposites meant to be  
And you're the one I'm choosing  
That's why I keep our love cruising  
In time, we will be back together

Pretty girl always on my mind  
When I try to chase her, I be running out of time  
Yesterday, I set her free, my heart's a little hollow  
If it's really meant to be, then I'll meet her at tomorrow

Pretty girl always on my mind  
When I try to chase her, I be running out of time  
Yesterday, I set her free, my heart's a little hollow  
If it's really meant to be, then I'll meet her at tomorrow

What we had was magic  
What we had was magic in our love  
What we had was magic  
What we had was magic in our love
