

What I need is you and me  
Sucking and fucking each other, the birds and the bees  
You know you hot, but you ain't got  
A nigga like me to hit the spot  
Ecstasy is what we'll be  
Tell your clique, we finna dip  
You're coming with me  
Oh, we gon' party at the afterparty  
It's just I'mma take you home alone before everybody shows up

Cause you got me so lit  
Come and take me higher, baby  
You got me so lit  
Come and take me higher, baby

Cruising and strip in the convertible, hands up  
I'm losing my grip cause you so beautiful when you stand up  
In the backseat, hair blowing in the wind  
Girl, watch yourself before I jump back there and get up in it  
Now I'm actually ghost riding the whip  
Cause I'm fucking with you  
If we crash, I don't give a shit, no I don't  
Cause girl, you make me so fucking hot, I wanna burn up  
The way you make up at the spot when we turn up  
It's beautiful  
Girl, yo booty's full like the moon in the sky now

Cause you got me so lit  
Come and take me higher, baby  
You got me so lit  
Come and take me higher, baby

You got me so lit  
You got me so lit  
Come and take me higher

You got me so lit  
Come and take me higher, baby  
You got me so lit  
Come and take me higher, baby
