

Thunder

Redlight

Don't want this rush to end cause I'm still speeding
Tryna hold onto something I believe in
You're like the last episode in the season
But I'm still here, just fucking with you
This is how it goes as you take off all my clothes
Ain't nobody gonna come closer than you, ain't nobody gonna come close
All over my body, all under my skin
Now we're in the same room, don't say a fucking-

Touch me
Touch me

We fucking rolling like thunder
Keep coming up but you're sending me under
We fucking rolling like thunder
Keep coming up but you're sending me under
And I never wanna let go
Ain't nobody else gonna feel this with me
Cause I feel like I'm exposing
What is really going on with me

This is how it goes as you take off all my clothes
Ain't nobody gonna come closer than you, ain't nobody gonna come close
This is how it goes as you take off all my clothes
Ain't nobody gonna come closer than you, cause you're my number one
All over my body, all under my skin
Now we're in the same room, don't say a fucking thing
All over my body, all under my skin
Now we're in the same room, don't say a fucking-

We fucking rolling like thunder
Keep coming up but you're sending me under
We fucking rolling like thunder
Keep coming up but you're sending me under
And I never wanna let go
Ain't nobody else gonna feel this with me
Cause I feel like I'm exposing
What is really going on with me

Cause you're my number one
Cause you're my number one
Cause you're my number one
Cause you're my number one
