

Heartache Blues

Reece Mastin

The rising calling
Faded from time tinted blues

Ties keep balling
Making my way back to you
I've been missin' you

And there's a heart bloom blowing in the face of hope I breathe
You're an isle to the sea, that I just can't reach
And the love that I wish I could send apart out to you
Till the time was spent more like my heartache blues

Heartache blues ohhh, heart ache blues ohhh
Ray your howling, blaring your lonely tune
Open highway, just us, heartach and blues
I look back on the road and think of where I've been
It's like painting a picture of a man, lost at sea
It's a blurrin' world it's a drunk mans dream
And a wish in my heart that you can drown with me, at least

Heartache blues ohhh, heartache blues ohhh
Heartache blues ohhh, heartache blues ohhh

This love on a telephone line is not my dream
The only kind of love I want is with you or me
