## **Heartache Blues**

**Reece Mastin** 

The rising calling Faded from time tinted blues

Ties keep balling Making my way back to you I've been missin' you

And there's a heart bloom blowing in the face of hope I breathe You're an isle to the sea, that I just can't reach And the love that I wish I could send apart out to you Till the time was spent more like my heartache blues

Heartache blues ohhh, heart ache blues ohhh Ray your howling, blaring your lonely tune Open highway, just us, heartach and blues I look back on the road and think of where I've been It's like painting a picture of a man, lost at sea It's a blurrin' world it's a drunk mans dream And a wish in my heart that you can drown with me, at least

Heartache blues ohhh, heartache blues ohhh Heartache blues ohhh, heartache blues ohhh

This love on a telephone line is not my dream The only kind of love I want is with you or me
