

Battle cry

Reed Deming

I see the rise, I see the fall
I see my future, I hit a wall
I see the cone full of storm
Broken people and broken souls
Hear the cries in the night
People praying for the light
To a clock in the morning and you just cant win the fight
Win the fight so
In the darkness of the night

Battle cry, battle cry
Hearing through the night, through the night
Through the
Couldn't bear, couldn't bear
I'll be by your side
Battle cry, battle cry
Hearing through the night, through the night
Through the
Couldn't bear, couldn't bear
I'll be by your side

I feel a change, I feel a dawn
A sense of greatness inside us all
I feel a fire, I feel a rush
I got my angels watching from above
But we're not perfect or free
This is working, they will see
See a fire inside of us that they ain't ever seen
Ever seen
In the darkness of the night

Battle cry, battle cry
Hearing through the night, through the night
Through the
Could'nt bear, couldn't bear
I'll be by your side
Battle cry, battle cry
Hearing through the night, through the night
Through the
Couldn't bear, couldn't bear
I'll be by your side

I will be, I will be
I will be, I will be
I will be, I will be

Battle cry, battle cry
Hearing through the night, through the night
Through the
Couldn't bear, couldn't bear
I will be by your side
Battle cry, battle cry
Hearing through the night, through the night
Through the
Couldn't bear, couldn't bear
I will be by your side

Battle cry, battle cry
Hearing through the night, through the night
Through the
Couldn't bear, couldn't bear
I will be by your side

I will be, I will be
I will be, I will be
I will be, I will be
I'll be by your side
