

Good Thing

Reel Big Fish

I never felt too good but in this world who would
I was always thinkin' somethin' wasn't right
But then you came along and helped me sing a song and
now I feel ok I hope it can stay- this way

You know we've got a good thing goin' and I don't wanna see it
end
You know we've got a good thing goin' and I don't wanna see it
end

Are these the good days that I've heard so much about-
there goes the heartbreak that I can live without

I've been so frustrated, bitter, mean, and jaded
I've taken for granted all the things I've got
But now that you are here this anger disappears
and I feel happy too this is sappy but it's true

You know we've got a good thing goin' and I don't wanna see it
end
You know we've got a good thing goin' and I don't wanna see it
end

Are these the good days that I've heard so much about-
there goes the heartbreak that I can live without (2x)
