Do do dodo doo

Punch me in the face  
Gash out my eyes  
Twist off my arm  
And make me realize that  
She's not the end of the world

Throw me down the stairs  
Hit me with a pipe  
Stomp out my brains  
And make me realize that  
She's not the end of the world

But how can I eat  
How can I breathe  
How can I sleep if she's not with me  
Oh, she feels like the end of the world

She's makin' a list  
And checkin' it twice  
If I'm not on it then what's your advice  
Tell me she's not the end of the world

It's happened before  
And it's happenin' again  
So slit my throat if you're really my friend  
Tell me she's not the end of the world

But why do I think  
Why do I try  
What if I drink myself til I die  
Oh she feels like the end of the world

Do do dodo doo

Do do dodo doo

I guess there's something in her eyes  
Like Armageddon coming with the red sunrise  
And if I had a dying wish  
I wish those massive missiles had missed  
And I'd blow my heart just like Big Ben's  
She's got an apocalyptic head

Punch me in the face  
Gash out my eyes  
Twist off my arm  
And make me realize that  
She's not the end of the world

Throw me down the stairs  
Hit me with a pipe  
Stomp out my brains  
And make me realize that  
She's not the end of the world

But why do I think  
Why do I try  
What if I drink myself til I die  
Oh she feels like the end of the world

And it's startin' all over again  
So if you're really my friend  
You'll put a rope around my neck  
And you'll hang me right overhead  
She feels like the end  
She must be the end  
Oh she is the end of the world
