God Is Good

Regina Belle

I know that god, my god God is good Oh god, my god God is good You know he brought me out of darkness God is good You know that he saved, my soul God is good Said that he saved my soul God is good I said that he saved, my soul, and then he brought me out of darkness God is good You know that he guides my every foot step God is good I said he guides my every foot step God is good You know that he guides my every foot step Then he saved, my soul, and then he brought me out of darkness God is good And then he put food on my table God is good Said he put food on my table God is good Said he put food on my table Then he put shoes on my feet So he could guide my every foot step Jesus saved, my soul, and then he brought me out of darkness God is good And then he made, a way God is good Said he made a way God is good I said that he made, a way Then he put food, on my table Then he put shoes, on my feet So he could guide my every foot step Jesus saved, my soul, and then he brought me out of darkness God is good You know that he healed my every sickness God is good Said that he healed my every sickness God is good I said that he healed my every sickness With no money in my pocket Jesus made a way out of no way, and then he brought me out of darkness God is good God is good
