

# Make It Like It Was

Regina Belle

Everyday we used to slip away to talk  
We would talk about the goodness of your heart  
Now it seems I admit that never exist at all  
And it leaves me feeling empty  
With this hollow chord

Make it like it was  
The way it used to be  
When i hungered for your love  
Constantly  
Make it like it was  
It was easier for me  
I know you're able  
To make it like it was

At a certain time you would find me on my knees  
Asking you to show light on my brother's needs  
Now it seems the needs are a secondary thing  
And it truly makes me wonder  
Whats really happening

Make it like it was  
The way it used to be  
When i hungered for your love  
Constantly  
Make it like it was  
It was easier for me  
I know you're able  
To make it like it was

Now when I compare there's really no comparing  
I just want it the way it used to be  
Just the thought of living with the horror  
Makes me ask that you make it like it was

Make it like it was  
The way it used to be  
When i hungered for your love  
Constantly  
Make it like it was  
It was easier for me  
I know you're able  
To make it like it was

Ooh yeah  
Make it like it was  
Make it like it was
