

# Bleeding Heart

Regina Spektor

Whatchu got on top?  
I'll take two of that  
I'm chasing a story I heard

When I was here last  
At the back of the class  
You pretended you never got lost

Yeah, in the back of the class  
in the back of the bus  
Sittin out at the dance  
Always saying no thanks  
And they see you around, looking down at the ground  
But when they walk away  
You wish they'd stay

Never never mind bleedin heart bleedin heart  
Never never mind your bleeding heart  
Never never mind bleedin heart bleedin heart  
Never never mind your bleeding heart

You can't help but stare at everyone there  
It's you versus everyone else  
Your outfit's a crime, you feel their cold minds  
Placing you under arrest

And you savor your time  
Drinkin all night long  
Starin at the walls  
Of your jail-like home  
Listening to that song 'cause it hurts just right  
Till everything is gone  
Tonight

Never never mind bleedin heart bleedin heart  
Never never mind your bleeding heart  
Never never mind bleedin heart bleedin heart  
Never never mind your bleeding heart  
(x2)

Someday you'll grow up  
And then you'll forget  
All of the pain you endured  
Until you walk by a sad pair of eyes  
And up will come back all the hurt

And you'll see their pain as they look away  
And you want to help  
But there's just no way  
'Cause you won the war so it's not your turn  
But everything inside still burns

Never never mind bleedin heart bleedin heart  
Never never mind your bleeding heart  
Never never mind bleedin heart bleedin heart  
Never never mind your bleeding heart  
(x2)

Never never never mind mind mind  
Nevermind your bleedin heart  
Never never never mind mind mind  
Nevermind your bleedin heart  
Never never never mind mind mind  
Nevermind your bleedin heart  
Never never never mind mind mind

How long must I wait  
Till you learn  
That's it's not too late?  
How long must I cry  
Till you know  
That you really tried?  
How long must I try  
Till you learn  
that dreamin's heard?  
How long must I dream  
Till you heal  
Your bleedin heart?

Never mind your bleeding heart
