

Small Town Moon

Regina Spektor

I must have left a thousand times
But every day begin the same
Cause there's a small town in my mind
How can leave without hurting every one who made me?
How can leave without hurting every one who made me?

Oh baby, baby it's all about the moon
I wish you wouldn't have broke my camera
Cause we're gonna get real old
Real soon

Today we're younger than we ever gonna be
Today we're younger than we ever gonna be
Today we're younger than we ever gonna be

Stop! Stop, what's the hurry?
Come on baby, don't you worry worry
Everybody not so nice nice
Everybody not so nice nice
Stop! Stop, what's the hurry?
Come on baby, don't you worry worry
Everybody not so nice nice
Everybody not so nice nice

Thought you ought to know by now
I thought you ought to know by now
Everybody not so nice nice
Everybody not so nice nice

Oh baby, baby, baby it's all about the moon

I must have left a thousand times
But there's a small town in my mind
How can I leave without hurting every one who made me?
How can I leave without hurting every one who made me?
How can I leave without hurting every one who made me?
How can I leave without hurting every one who made me?
How can I leave without hurting every one who made me?
How can I leave without hurting every one who made me?
