

Fly

Regine Velasquez

Come feel the power of the love
Release the power of the love

Comes a time when love is just another
And ain't no special thing
Becomes a crime when neither cares
No longer and kills like sinking sand

And what is there to offer
To make it all much better aside
From going all the way
To try a little harder
And make the hearts go fonder a
Little more than words can say

We just gotta keep on lovn'
We just gotta make it happen
Every minute hour of the day
Just the two of us together on
The wings of love we travel
Here we go up and away

Fly and feel the power
Of the love in one another
Fly release the power of the love that'll take us
Higher
Pa-ri-ya and feel
The power of the love
Pa-ri-ya release
The power of the love

Fly away in search of new adventure
With hearts on cruise control
Come what may we're gonna face
The future aboard the clouds we soar
