

Love Me Again

Regine Velasquez

I still remember that day
You said goodbye and my eyes start to cry
Ooh baby, why do we have to feel this way
Ooh baby, where in this world would I be

You try to find someone new
Say it's just a game and you'll still come back to me
Ooh baby, there's still a chance for you and me
Please tell me it's just a matter of time

Love me again, love me again
Cause you know I've been waiting for so long
Please love me again
Love me again, I'll do anything for you
Just love me again

Now, what words can you say
Forgive those to blame, forget all the pain
Ooh baby, why don't we try it again
Please tell me now is the time

Love me again, love me again
Cause you know I've been waiting for so long
Please love me again
Love me again, I'll do anything for you
Just love me again
