

Once In A Lifetime Love

Regine Velasquez

Everybody needs somebody
I'm alone and waiting to find
My once in a lifetime love

(Once in a lifetime boy)
Heaven if you're listenin' to me
Tell me when I'm going to find
That once in a lifetime love

Someone to hold someone to kiss
I've seen his face a million times
In my dreams
Passion that's real
Love I can feel
Here in my heart
I can see

All that I need perfect is here
So sensitive and warm and
Gentle with me
Will this dream be reality
If so then tell me
Love this would be
So many nights
Spend all alone
I need a love
That I can call my own
Tell me how long before
I find my one true love
Is there an answer
From heaven above

(Is the love for me
And it's meant to be
I'm waiting patiently
When will it come to me
Everything I need not just
A fantasy
Will it come to me...)
My love is waiting for you, baby, please...

Am I gonna find, yeah, yeah...
