

Our Love

Regine Velasquez

Lost and lonely lives
Drifting by waves of tears
We make it day by day
Watchin' the world go by
In a moment when time
Stands still
Here we are forever

Darlin' our
love one love
That never fades away
Our love
This love will light the world
All day (its way)

Shattered broken dreams
Sifting like grains of sand
We claim it here we stay
Watchin' the world go by
With a strength that we
Spend in this life
In a hope that it goes on
Forever we believe as we
Promised to try
