

# Shine

Regine Velasquez

there i was alone in the shadow  
couldn't find my way  
then you came in  
and brought along the sunshine  
now you're here to stay  
you make me shine, shine  
like the stars in the heavens  
shine, shine  
you keep me shining through  
shine, shine  
with a light that you've give in  
it's true...  
i'm shining on  
all because of you  
so watch me glow  
a light shines within me

people ask me why  
and i just smile  
and tell them you're the reason  
i've cast the darkness aside  
and you make me shine, shine  
like the stars in the heavens  
shine, shine  
you keep me shining through  
shine, shine  
with the light that you've give in  
it's true  
i'm shining on all because of you  
like a ray of light  
coming through the night  
bright as the sun in the sky  
see how i shine
