Tell Me That You Love Me

Regine Velasquez

So far away on a cold, lonely night If I could only hear your voice, That, IDd be alright Tell me that you love me, Tell me that you care I just wanna hear your voice Come floating through the air Telephones are lonely Tell me youDre alright I just wanna feel you near When I lay down tonight.

IDd give anything to see your face Just to share the silence of your eyes Your love is something no one can replace and While IDm gone I donDt want you to cry Please donDt cry.

Tell me that you love me, Tell me you re okay Telephones are lonely It sounds so far away Tell me that you need me Tell me it s alright I just wanna hear your voice When I lay down tonight.

IDd give everything to taste your kiss Just to feel your body touching mine It hurts me to be wanting you like this So tell me that you love me one more time One more timeD

Tell me that you love me Tell me you re alone I just wanna hear your voice IOm so far from home Tell me that you love me, Tell me that you care I just wanna hear your voice Come floating through the air.

Oh Tell me that you love me, Tell me that you care I just wanna hear your voice Come floating through the air Telephones are lonely Tell me you□re alright I just wanna feel you near When I lay down tonight.

so far away...
