

This Time

Regine Velasquez

If you love me
Love like you never loved before
Like you'd never wanted nothing more
And I will too, just make it real this time

If you want me
I'll forget what happened in the past
Just make sure this time it's gonna last
I want it real, just make it real this time

I don't want your lies, this time please be wise
This time please be nice
I wanna see it in your eyes

Darlin' you know I love you, and I'm prepared
To give a second chance
And with the way you tightly hold my hand
I just know it's real, just make it real this time...

Baby you know I love you, and I'm prepared
To give a second chance
And with the way you tightly hold my hand
I just know it's real, just make it real this time

Make it real, make it real this time.
