

Wired For Love

Regine Velasquez

Careful baby, you've got me
Tonight there's no telling what my
Heart might do
When you touched me
Something triggers deep inside
Sparks start flyin'
As I become electrified
Raw emotion baby
Burning underneath my skin
And when you kiss me
A million fireworks begin
(Wired for love)
Look at how I'm goin'
(Wired for love)
Feel the current flowing
(Wired for love)
You supply the power
Hour after hour
I'm wired for love
Strange vibrations
Runnin' up and down my spine
No mistaken what
Our hearts have in mind
Come and hold me
Make my circuits overload
Feel the heartbeat
Tickin' like it might explode
(Wired for love)
Oh, I'm wired
(Wired for love)
Feel the current flowing
(Wired for love)
You supply the power
Hour after hour
I'm wired for love
(Wired for love)
Heart to heart connection
(Wired for love)
Burnin' on affection
(Wired for love)
Baby your the power
Hour after hour
I'm wired for love
(Wired for love)
