

Without Me

Regine Velasquez

I had an inspiration to call you on the phone
And tell you I once loved you there ain't nobody home
The night is cold and empty
aAre you out there alone without me?

It's really for the better that you're not in today
I shouldn't still be trying to talk to you this way
But I can't give up hope
You'll start to notice you're without me

Without me, how can you live without me?
My world is gone and you carry on without me

I've made my life fulfilling to take you off my mind
My head is always willing, my heart is not that kind
I'm the one who left you
And you're the one who's fine without me

Without me, how can you live without me?
My world is gone and you carry on without me

Oh, laugh if you want you have the right
It was just like you said: I'd spend my nights alone without yo
u

Without me, how can you live without me?
My world is gone and you carry on without me
Oh, without me

I had an inspiration to call you on the phone
