**Regurgitator**

Keep pushing straight ahead  
I've learnt from the past that there's no time to regret  
The woman makes me feel alive  
She shines in the night to open up my eyes  
She helps me realize

So I run to the streets kicking 'round on my feet  
I take freedoms path and I'll let my life be  
Soul dedication to all my realities  
Set your sisters free  
It's the way it's meant to be
