You don't have to be the best to be number one.
There's plenty of numbers waiting on you to fall.
Why are pretty people pretty?
I think they call it just because
We're all a nation of outlaws.
Blacks and whites
Right-handers and southpaws
I ain't snitching I'm bitching.

Sleep Eat Drink Shit
There another week went
Numb nuts dumb struck
Hard to tell what's what
Numb skull sitting 'round
Blank stare thinking
Absolutely
Nothing but shoot me
Sleep Eat Drink Shit
There another week went
Numb nuts dumb struck
Hard to tell what's what
Numb skull sitting 'round
Blank stare thinking
Absolutely
Nothing but shoot me

F-15's and M-16's
Magazines and killing machines
God would not invent these things
Are we perverted as it seems.
If this was a dream it'd be a nightmare
I like to know how to fight fair
Cuz I can't successfully cheat
Can't help feeling like I been beat.

Sleep Eat Drink Shit
There another week went
Numb nuts dumb struck
Hard to tell what's what
Numb skull sitting 'round
Blank stare thinking
Absolutely
Nothing but shoot me.

I got no familiarity with clarity charity case
Life has become a parody pace of a Indy race
Stare in the face of fuckupedness in the mirror
Wobble like webble from needles mad bottles
Baggies and wobbles problems simply the pebble's

Hobbled the mental in a lot of ways in a little
Comfort but instrumental determentally gobbling
Pills for supper upper echelon big city pretty
Silicon titty bittys want wads of fifty's
Not a hard working witty man with callus hands
So I'm shitty shiny shotty in my lap
And drinking Naughty tapping or cracking the melon
That got me snapping fell in a trap in lunacy
Laughing sapping my sanity someone tell me what happened
Before I go capping crowds yapping with loud mouth devils
Of thou shalt the by wrong route so fuck it
I feel forsaken I'm flipping dipping riding bouncing
Looking like we're all faking I roll home and take an ounce in.
