

Ole Friends

Rehab

We can drink liqour we can tell lies
We can make fun of each other and laugh till we cry
Sit and reminisce about that time
Isn't that what ole friends do
Isn't that what ole friends do
Come on over
Pick your poison
Grab me a twelve I'll pay for it all when you get here
Ain't no crowd
And we can get loud
But I'm too drunk to drive over to your house
We'll do it like we used to do
Sit around get high and act a fool
We'll do it like we used to
We can drink liqour we can tell lies
We can make fun of each other and laugh till we cry
Sit and reminisce about that time
Isn't that what ole friends do
Isn't that what ole friends do
Come on over I got that fire
I already have one road up when you get here
Man you ain't tired
So come on out
Cause I'm too dry to drive to your house
We'll do it like we used to do
Sit around get high and watch the tube
We'll do it like we used to
We can drink liqour we can tell lies
We can make fun of each other and laugh till we cry
Sit and reminisce about that time
Isn't that what ole friends do
Isn't that what ole friends do
The game is on eight
I got a freezer full of space
So grab your guitar
And bring your liver
Let's see how much noise we can make
Till the cops come
We can drink liqour we can tell lies
We can make fun of each other and laugh till we cry
Sit and reminisce about that time
Isn't that what ole friends do
Isn't that what ole friends do
