Rehab

Come on, come on, come on, yeah, yeah, yeah, yeah  
You turn away when I come around  
I ain't even looked at you  
When I look at you , you look down  
Look crazy, tell me who are you?  
I get this shit 'cause when I hear a sound  
Brooks, "Kill everybody"  
People talkin' in my head, I hear 'em screamin', want to shut 'em down  
And everyday I run away  
But I don't know where I'm goin'  
End up back where I stay  
Givin' up, brain overflowin'  
Disarray, pain, dismay  
I'm in a lot of pain, for sure  
I call my momma but she told me take a Tegritol and go away  
I write shit on the wall  
But it doesn't make any sense  
God's gonna kill you all  
If you are, no he isn't  
Pop another Rispidol  
Or maybe I should take four  
I put my head through a mirror and nobody seemed to care at all  
Back from another bender  
But I don't know when I'm comin' off  
Threw the T.V. through the window  
Honey, can you turn it off?  
Ask my girl, "where's my fuckin' dinner?"  
Lucky I'm even here  
She told me, "make it for yourself!"  
And then she hit me with a blender  
Just because you're paranoid does not mean the whole world ain't against you

If you had to stand alone I'd bet you'd bring a friend to keep you  
Company, and I understand  
I'm scared as you are and  
I swear to god my mind's workin' against me  
Killin' me, killin' me, killin' me, killin' me  
Chest tight, shallow breath, scared to death, cottonmouth  
Nervous, takin' sweaters and devils' inside me kickin' his way outta me  
Lie to me, tell me I'm normal and beggin' me  
And now could it be the way I'm livin'  
I got me thinkin' everybody's after me, so casually  
These strangers be starin' when they passin' me  
And I get the feeling they know I only work half the week  
And I'm just waitin' for one of these sorry son of a bitches to laugh at me  
So I can let the demon preceed and bleed  
I've been geekin' 3 weeks and I need some peace  
This razzamatazz and pizzazz, has like I'm Alcatraz  
Dire for getting me higher, shows like the wires on my tires  
Having a panic attack in the back of a Cadillac on crack  
What's the fact, what the fuck, how to act  
I'm feelin' stuck, what if it fades to black  
Just because you're paranoid does not mean the whole world ain't against you

If you had to stand alone I'd bet you'd bring a friend to keep you  
Company, and I understand  
I'm scared as you are and

I swear to god my mind's workin' against me  
Killin' me, killin' me, killin' me, killin' me  
But I really gotta wonder why  
Your head is in the way  
No matter what I do I can't die  
I'll try it anyway  
No matter what I do I ain't high  
Speed, Special-K  
So I'm coppin' me a bird and stick it in my mouth...bye, bye  
Brookie, don't do that  
That's what I'm shootin' for  
Or at least get it on that  
Record label whore  
Before you do that  
Just release the album  
So we can make a million dollars off you just to buy a Cadillac  
Just because you're paranoid does not mean the whole world ain't against you

If you had to stand alone I'd bet you'd bring a friend to keep you  
Company, and I understand  
I'm scared as you are and  
I swear to god my mind's workin' against me  
Killin' me, killin' me, killin' me, killin' me  
Just because you're paranoid does not mean the whole world ain't against you

If you had to stand alone I'd bet you'd bring a friend to keep you  
Company, and I understand  
I'm scared as you are man  
I swear to god my mind's workin' against me  
Killin' me, killin' me, killin' me, killin' me  
Please release this fear from me  
Wherefore art thou sanity?  
Bleeding joy, I have no skin  
Turn off the noise, I'm cavin' in  
I cry and pray, I lay awake  
Could someone please just make it go away  
Just because you're paranoid does not mean the whole world ain't against you

If you had to stand alone I'd bet you'd bring a friend to keep you  
Company, and I understand  
I'm scared as you are and  
I swear to god my mind's workin' against me  
Killin' me, killin' me, killin' me, illin' me
