

Rattle My Cage

Rehab

You say I am narcissistic and cold hearted, well yeah maybe
But I don't give a damn about you this much is true
My vision is blurry and my thoughts are hazy baby
I know I'm stupid so I must be smarter than you

Keep your advice leave me alone and don't rattle my cage
Just let me wallow in my own shit, don't rattle my cage
I'm known to bite the hand that feeds me, so don't rattle my cage
I'm bossly in row now, everybody starin' at me, goes rattle my cage

Do I look I want to be bothered?
Like I care about the glow, my life is a Commode
I like my depression a-la-mode, on the road
Get off my back about my health
I like disease, I'll still be around when y'all are feeding trees

I don't want your speech or your sound advice
Don't like people who seem nice
Talkin' in my head like a family of lice
Just let me wallow in my rage
Don't clean up my droppings and don't rattle my cage

Keep your advice leave me alone and don't rattle my cage
Just let me wallow in my own shit, don't rattle my cage
I'm known to bite the hand that feeds me, so don't rattle my cage
I'm bossly in row now, everybody starin' at me, goes rattle my cage

Hey man, I won't say
I want this whole town to leave me alone
Hey man, I won't say
Hey man, I won't say
I want this whole town to go away

Keep your advice leave me alone and don't rattle my cage
Just let me wallow in my own shit, don't rattle my cage
I'm known to bite the hand that feeds me, so don't rattle my cage
I'm bossly in row now, everybody starin' at me, goes rattle my cage
