

Turn Around

Rehasher

Someone call me a taxi cab, I'm out of here
There's no inspiration to be found
And I need to break new ground
I can't take the agony of repetition
And when old habits hold you down

Just turn it around and
Don't think twice about the life that you've been leading
You felt the brightest when you lost your inhibitions
Just turn it around and
Don't think twice about the life that you've been leading
Just leave your head up in those clouds

A couple a days a year feel golden
When the right thing you know you should have done
Well that's exactly what you did
You don't have to fill your head with second guesstimations
And when old habits burn you down

Just turn it around and
Don't think twice about the life that you've been leading
You felt the brightest when you dropped your expectations
Just turn it around and
Don't think twice about the life that you've been leading
Just leave your head up in those clouds
'Cause it's over now

It's over now
I'm through it somehow
It's over, no connections to keep me around this town
'Cause it's over now
I'm through it somehow
It's over, break old habits, I've gotta break new ground

And when old habits burn you down
Just turn it around and
Don't think twice about the life that you've been leading
You felt the brightest when you dropped your inhibitions
Just turn it around and
Don't think twice about the life that you've been leading
Just keep your head up in those clouds
'Cause it's over now...
