

# Play With Fire

Reik

I can read your lips there's something  
That you're dying to tell me  
Can you read my mind  
Don't wanna lose my cool

I can feel your mouth  
Melt away on my advances  
Can you feel my heart beating  
Fast for you

I pull you close  
Girl I can make your temperature rise  
Let's lose control don't hold back  
Let love ignite

Now all I wanna do is hold you  
And touch you like  
You've never been touched  
I knew it from the moment I saw you  
This could be love  
And who knows that could  
Come with the morning light  
Right now you make me feel so alive  
I could feel that rush  
When I look into your eyes  
Don't you wanna play with fire

Like a shooting star  
Traveling across the sky  
If we're gonna burn out  
I wanna burn out right

I pull you close  
Girl I can make your temperature rise  
Let's lose control don't hold back  
Let love ignite

Now all I wanna do is hold you  
And touch you like  
You've never been touched  
I knew it from the moment I saw you  
This could be love  
And who knows that could  
Come with the morning light  
Right now you make me feel so alive  
I could feel that rush  
When I look into your eyes  
Don't you wanna play with fire

Let the heat of the moment take you  
Fly its way into the sun  
From the stars to a plane  
Baby we'll keep burning up

Now all I wanna do is hold you  
And touch you like  
You've never been touched

I knew it from the moment I saw you  
This could be love  
And who knows that could  
Come with the morning light  
Right now you make me feel so alive  
I could feel that rush  
When I look into your eyes  
Don't you wanna play with fire

Ouoooh  
Don't you wanna play with fire

Ouoooh nonoooh oooh  
Don't you wanna play with fire
