

# Always Be There

ReinXeed

Reach for your dreams in silence, someday you will be there  
I will always be beside you, and you know I'll always be there

Looking for the answer high above  
Across the sky, deep inside you  
That's where you will find the answer

Even if the time is right I will always know  
That the feeling that I get  
I will share until we die

If you're all alone out there  
In darkness do not fear  
Do like many others and  
Just pray to see the light
