

See the sun arise another day
We sail across the sea
Our journey starts forever we'll go
Until the land is found

Be ready it's time now to go
Sharing our dream to the world
Whispers of darkness will fail
Summon your powers to
See what we will be

We will sail, across the sea
We will find the explore a new world
In the end we all shall be free
When we find the lost world Atlantis

Many years ago the city was lost
Deep beneath the sea
Someday I will find it
The secret lies within

Gold and silver deep
Beneath the blue sea
A world we can see, not only dream
Only the strong will survive when
We're searching the lost world
That gone under sea

We will sail, across the sea
We will find the explore a new world
In the end we all shall be free
When we find the lost world Atlantis
