

# Deep Under Sea

ReinXeed

The moon appear one stormy night  
Listen to the thunder and rain  
Treasure lying deep within  
Beneath the surface where we live

I just want to be free  
From this curse and damnation  
I want my eternity to be  
Where I long to be

All my life I have learnt  
About a life high above the sky  
To be free and no one will  
Control my own destiny

Now I know I will be free  
From this curse and damnation  
I want my eternity will be  
Where I long to be

Silently I scream alone  
I hope that someone  
Know where we are  
Don't want to be deep under sea  
Where dreams are falling down  
From the world above to see  
I will lend you all  
All of my dreams to be free, to be free  
(Now can you see it? Do you believe it?  
All of your dreams come true)

Enter the squid cave!  
Nowhere to run or  
Escape from this place!  
You will be here in this  
Dark cold space!  
Mercy will be shown  
If you play by the rules!  
But their we ain't letting out no fools!

Don't want to live my life deep  
Beneath the sea  
You are my only hope  
Help me so I can be free  
I give to you my voice so that  
I can be far away from sea!

Silently I scream alone  
What have I done to my life?  
Fear crawl inside on me  
Walk on land or swim with you?  
I want to go home
