

Send from heaven down to earth  
Drank a bottle filed with dirt  
I now became a mortal man  
Even though i have left  
My divine strength  
I know i will always be a part of this

Trained by goatman everyday  
My horse will fly me everywhere  
Lady in distress, i finally saved the day

Can you see me, i won't die  
Can you see me light up the sky?  
will there be a never ending fight?  
It"s never to late when your power  
Grows stronger each day

Fight giant all the time  
To find some peace of mine  
I always wanted to be number one

I'm the hero number one  
I'm an action figure, i"m your son  
It's time to role the dice  
Father can you show me paradise?

Can you see me, i won't die  
Can you see me light up the sky?  
will there be a never ending fight?  
It"s never to late when your power  
Grows stronger each day
