

Never Lie

ReinXeed

Every story has an end
Just like every story begins
If you believe your life is a fairytale
You're living on dreams

Always remember your heart
Will be guiding your way
To the end of your fantasy
Just believe in me

Never lie!
It will affect you destiny
Your belief in truth has gone
If you can't remember
Never try!
You always end up doing wrong
No way is shorter when you tell
What's deep inside your heart

Maybe sometimes when you lie
Your nose will grow an inch
Just like that puppet master
When his boy committed a sin

Out of a book to the screen
You can see how the boy realize
There's no way to hide
When you tell a lie

Never lie!
It will affect you destiny
Your belief in truth has gone
If you can't remember
Never try!
You always end up doing wrong
No way is shorter when you tell
What's deep inside your heart

Sometimes in my dreams
In my wildest fantasies
I see the distant skies
It's waiting there
Waiting there for me

Never lie!
It will affect you destiny
Your belief in truth has gone
If you can't remember
Never try!
You always end up doing wrong
No way is shorter when you tell
What's deep inside your heart
