

# Neverland

ReinXeed

Come fly with me  
To the land of adventure  
Don't be afraid to give in  
here you can wish and your  
Dream will come true  
You will see all your dreams

Never to late to grow, so they say  
Here you can be as you are  
Nothing will take you  
Away from this night  
With powerfull shining star

There's an evil lurking in the dark  
Beware of the shadow of night  
We fly away to the sky

Neverland, this is where  
Your dreams come true  
take my hand and i will follow you  
Cry for help, i'll be around  
Once again neverland will be as one

There will be answer  
To question unknown  
Once we arrive to the shore

Follow the star on the night  
And your home will  
Be as you wish

Some night you're watching the star  
But some night you stare at the  
Moon by the sea  
Wanting to go home  
(Home's where you make it)

Neverland, this is where  
Your dreams come true  
take my hand and i will follow you  
Cry for help, i'll be around  
Once again neverland will be as one

Pirates of the seven sea  
Try to take our dignity

"Load the canons, beware of the signs  
Neverland shall be mine"
