Once upon a Time

ReinXeed

For many years of secrets untold
I know what to reach for in gold
The passion lies within our hearts

And now, I've discovered
A secret so feared
A power so shiny and clear
If only I can hold it
Unleashed the power within

I want to be free again
No more danger and enemies
Geeny of the secret within
Help me now to set things right

One wish or two maybe
Three you might have
For setting me free
From a century of darkness
How about a prince?
You might even find true love

Maybe so if you'd help me
Escape from this cave
And gave me a life full
Of riches and fame!

Now hold on tight, let's go!
To freedom, adventure and happiness

"Once upon a time
On a cold dark stormy night...
A mighty creature, granted his wish
And now to return
And become the mighty prince he
Always wanted to be..."

Heil, master!
Lead us the way
As you wish!

Lead the way, standing strong
Fighting for our love
I believe, one day we will
Live in harmony

Now do you believe
What can you see?
There's magic surrounding us
From this time
I think you the mighty geeny
Be giving my last wish
To your freedom

Now I'm free!
